SKILLS

- **Frontend Development:** React.js, Redux, Context Api, Hooks, React Router, JavaScript (ES6+), Bootstrap, HTML5, CSS3
- **UI/UX Design:** Wireframing & Prototyping, Figma, Adobe XD, User Research& Testing, Interaction Design

Education

Bachelor of Computer Engineering

Atmiya Institute of Technology and Science

- Graduated with a CGPA of 8.05, focusing on computer engineering concepts, software development, and web technologies.

Diploma in Computer Engineering

Atmiya Institute of Technology and Science

- Completed the diploma with a CGPA of 7.28, gaining a strong foundation in programming, databases, and computer systems.

WORK EXPERIENCE

Nectar Infoway

Frontend Developer (ReactJs)   Jun 2025 - Present

- Developed and maintained dynamic, responsive web applications using React.js, JavaScript (ES6+), and Tailwind CSS/Bootstrap, improving UI performance and scalability.
- Integrated RESTful APIs and optimized application state management using React Hooks, Context API, and Redux for seamless data flow and user experience.
- Designed and developed visually appealing, user-centered interfaces, combining UI/UX principles with modern frontend technologies to create seamless and engaging web experiences.

Tretanz Infotech

Frontend Developer (ReactJs) | UI/UX Designer   Jan 2023 - May 2025

- Built scalable single-page applications (SPAs) using React.js, enhancing performance and user experience.
- Developed responsive web interfaces with HTML, CSS, JavaScript, and jQuery, ensuring cross-browser compatibility.
- Designed intuitive UI/UX components and wireframes to translate business needs into engaging user interfaces.

Vedansh Infoway Pvt. Ltd.

Front-End Designer Trainee

- Trained in **front-end development**, focusing on **HTML, CSS, JavaScript, and jQuery.**
- Built and deployed **responsive websites** with a **mobile-first** approach for optimal user experience.

Projects

GAET – Educational Institute Website ⬈

- Designed and developed a responsive, modern website for GAET to showcase institutional information, academic programs, and admissions.
- **Frontend Development:** Built using React.js, HTML5, CSS3, and JavaScript to ensure fast load times, cross-browser compatibility, and mobile responsiveness.
- **UI/UX Design:** Created intuitive layouts and navigation structures using Figma, focusing on accessibility and user engagement for students and parents.
- **Performance Optimization:** Implemented clean code practices and component reusability for better maintainability and scalability.

Droipinx - Courier Management System ⬈

- Designed a user-friendly platform to streamline courier operations, catering to two roles: Courier Boy and User.
- **Designed a User-Friendly Platform:** Streamlined courier operations with dedicated modules for **Courier Personnel** and **Users**.
- **Courier Boy Module:** Enabled efficient delivery tracking, status updates, and route management.
- **User Module:** Provided seamless booking, real-time shipment tracking, and delivery preference management.
- **Integrated Notifications:** Ensured timely updates for both couriers and users, enhancing communication and efficiency.
